

BK21플러스 초청 세미나

일 시 : 2014년 07월 01일(화) 15:00 ~ 17:00

장 소 : 공업센터 본관 416호

연 사 : Prof. Masaki Hayashi

(Uppsala University, Campus Gotland, Sweden)

**"Research Activities in CM Lab of Uppsala University
- Virtual museum, Text-To-Vision, Engagement in games and
Microtone analysis -"**

Abstract

Convergent Media Laboratory is a research group in the Department of Game Design, Uppsala University. In this talk, Prof. Masaki Hayashi will introduce the following research activities in the Lab; 1) Virtual Museum in 4K ultra-high-resolution with real-time CG, 2) T2V (Text-To-Vision) technology implemented in Unity game engine applying to automatic content generation and games, 3) Measuring engagement in video games using a biophysical sensing system, 4) Music analysis of microtone in blues vocal. The presentation will be done together with lots of demo actually working on a laptop.
